Minutes will be posted to the IT website
<http://tech.ashland.edu/dscCommittee.html>

Release 18

Few issues with release 18 mostly with new user interface.

Datatel Hardware

IT will be replacing the IBM system, switching to Dell instead. It is about 1/3 the cost with minor problems. Hope to have live in December. New passwords may have to be issued along with print queue names changing. This is a big opportunity to get rid of things that don't have lots of meaning. The Financial Aid dept will be affected by the software and will have to use the PC software for transmittal's they use to use. The new PC will be faster. This will be a big difference for Don and his department.

Conferences

Great Lakes Users Group will be meeting in Toledo this year. This group will be doing more user oriented stuff. This is a good way to see how other schools are doing. Cost is about \$300 per person.

Datatel Useres Group will be March 8-12 in DC. The cost is about \$2000 per person.

Address Standards

Telephone numbers – What numbers should go with the person and what should go with the address.

Home phone number stays with address

Business phone becomes person's

Fax phone number becomes person's

Don will be switching flags and fixing records

Next meeting will be Sept. 4th at 2:00 in FDR Seminar room.
