# WindowsXP

## **Why do I need WindowsXP Professional edition instead of WindowsXP Home edition?**

If you are living on-campus and only want Internet access, you do not need WindowsXP Professional edition; however, if you want access to your network drives, you must upgrade to WindowsXP Professional edition, and install the Novell Client. You can purchase WindowsXP Professional edition from the AU Bookstore.

For more information on this topic, please visit [Microsoft's Webpage](#).

If you have any problems or questions please feel free to contact Information Technology at ext. 5045 (419-289-5045 off campus) or e-mail a technician at [help@ashland.edu](mailto:help@ashland.edu)
